

2 Outline **two** steps that President Carter took to encourage the Soviet Union to withdraw from Afghanistan.

President Carter has supplied mujahideen with weapons. This has made the Afghans more stronger and harder for the Soviet soldiers to defeat them.

President Carter has put economic sanctions on the USSR. This meant that USSR which has been quite poor because of the arms race anyway, had ~~to~~ to give up more even more money from the budget, therefore they probably wouldn't be able to supply their army as much.

you gave 2 factors/points (4) full marks!!
then amplified/explained each one.

You took these from the source and your own knowledge.

(Total for Question 2 = 4 marks)
